Why would any business choose to be ordinary when they could be great?

**Please be honest when answering the following business critical questions:**

1. Have you mapped the untapped opportunities that may already exist in your business?
2. Are you aware of staff that could do more?
3. Have you checked whether the best ideas already lie in your organisation?
4. Have you stress tested your growth aspirations/projections in terms of staff?
5. Are you confident you have developed an edge over your competitors?
6. Do you regularly allocate time to focus on growth strategies for your business?
